Letter of Recommendation

I am pleased to offer this letter of recommendation for my student, Parmila Khapangi. Parmila is enrolled as a full-time student in the Dental Hygiene Program at St. Louis Community College. Upon completion of the Dental Hygiene Program, Parmila will earn the degree of Associate of Applied Science in Dental Hygiene in May, 2026.

I have had the pleasure of having Parmila as a student in the courses I teach at STLCC. Parmila is a very hard-working student. She maintains excellent grades and always completes assignments thoroughly and on time. Parmila is always cooperative in labs and classroom activities and assists others in class and clinic as well.

Parmila's attention to detail and hard work ethic not only make her an exceptional student in the classroom, but these assets also assist her in her clinical time as a dental hygiene student. Parmila has excellent clinical skills, great rapport with her patients, and a team-centered work ethic. She is prepared for her clinical duties and on-site rotations, and she is happy to help others in a variety of situations. Parmila's hard work, determination, and cooperation are evident in all she does, and they will serve her well in her future career as a dental hygienist.

It is without any reservation that I recommend Parmila Khapangi to you for your consideration for the dental hygiene position.

Sincerely,

Julie Dermody, RDH, BSDH, MA
